

# Ayesha Choudhary

Frontend Developer

## PROFILE

A detail-oriented Frontend Developer with over two years of experience building responsive, scalable, and user-centric web applications. Passionate about creating clean UIs and interactive data visualizations using React, Redux, and modern libraries like Material UI and Tailwind CSS. Excels at translating complex requirements into intuitive and performant user experiences. Adept at collaborating in cross-functional teams to deliver high-quality software solutions that meet project objectives.

## PROFESSIONAL EXPERIENCE

### Full Stack Developer

Freelance | Jaipur, India | July 2024 – Present

- Designed, developed, and deployed three full-stack applications for clients in e-commerce and SaaS, focusing on creating pixel-perfect, responsive user interfaces with React and Tailwind CSS.
- Engineered complex state management solutions using Redux Toolkit to handle asynchronous data and improve application predictability.
- Partnered with clients to gather requirements, provide technical recommendations, and deliver tailored web applications that exceeded expectations.

### Software Engineer

Escorts Kubota | Jaipur, India | November 2022 – July 2024

- Led the frontend development of an internal performance monitoring dashboard using React, enabling stakeholders to visualize and interact with complex Genset performance data.
- Translated complex warranty claims data into user-friendly UI components with Material UI, helping the quality assurance team identify recurring issues and failure patterns more efficiently.
- Developed and implemented interactive frontend modules to display sales forecasts and predictive analytics, making critical business data more accessible to non-technical users.
- Collaborated with the backend team to design and integrate REST APIs, ensuring seamless data flow between the server and the client-side application.
